

**TRAINING USA, INC.**  
WE TRAIN AMERICA

# HEAVY EQUIPMENT

## Operations & Safety Training

Training USA, Inc. offers a 1-day or 2-day safety training course featuring classroom and hands-on training to local government entity employees. Trainees can expect to learn about equipment orientation, proper safety gear, special operation tasks and more.

We have NEW Operator training certification courses and offer refresher safety training for experienced operators. Several safety training courses include a *Train the Trainer* component. Emergency backup personnel who may be called on to use the equipment in special circumstances such as after a natural disaster or any other reason where no other operators are available are encouraged to participate in these courses.

Training USA, Inc. offers the BEST heavy equipment training in the industry. In order to ensure this, seasoned Safety Experts with years of knowledge and experience in the field offer these courses. **Train with the real experts, train with Training USA.**

Trainees will receive a Training Certificate!
