

FLAGGER

FDOT Basic Safety Certification Course

Target Audience: This half-day course is designed to train novice flagger personnel to provide safe passage of traffic through and around work areas and to minimize confusion through knowledge and implementation of standard flagging procedures. This course is recommended for personnel who close traffic lanes for construction work and/or perform emergency lane closures.

The course is also recommended for experienced flaggers in both one-and two-person flagging operations as a refresher course on FDOT standard flagging procedures and practices.

Students will receive a Training Certificate and DOT Certification / Wallet Card!

Classroom Summary

A flagger's job is to protect construction zone workers and the traveling public from each other. Class participants will learn:

- Thorough understanding of flagging procedures and proper use of required equipment
- Improved flagging skills from hands-on training, classroom activities and a flagging skills test
- Increased ability to coordinate traffic movement through the work zone

By the completion of the course, students will be required to demonstrate proficiency in the following areas:

- How to stop, slow and release traffic using a stop paddle and how to control traffic using a flag if needed
- Controlling traffic on a two-way road and how to use different methods to communicate with other flaggers
- How to set up and handle night flagging
- Understand why proper flagger operations are important
- Learn the standard skillset of a good flagger
- Apply standard flagger control references
- Identify proper flagging signals and procedures
- Learn standard flagger practices for various situations
